

Capstone Project - the Battle of Neighborhoods

I will explore the neighborhoods of Toronto for answering the question: where is the appropriate place to open a restaurant of European cuisine is contemporary, creative and better adapted from a dietetic point of view which differs from traditional kitchens.

Of course, it will be a recommendation. Like all major cities in North America, many factors must be taken into account before making a decision. I will explore the center of Toronto to discover the potential. The competition is important but the business potential is also important.

As a reminder, the financial heart of Canada is located in the city center as well as many head offices are present.
